ABOUT US

Sunrise Film Festival (SFF), based in Lowestoft, Suffolk was founded in 2021.

Proudly providing a platform for filmmakers that are yet to be discovered or struggling to be picked up. #SunriseFilmFestival is a celebration of undiscovered talent and independent film from across the UK and internationally, that actively supports and champions filmmaking in Lowestoft on the East Coast!

In 2023 we screened just over 130 independent films as part of our official selection to our live audiences and presented 14 prestigious awards at our festival award ceremony.

In early 2024 we became a BIFA qualifying festival, for British Short Films (Section B).

Though I couldn't stay too long. Lowestoft definitely has the makings of a great long-running festival. The area is very pleasant and the team are great to talk to. Can't wait to see what they do in the coming years with Sunrise Film Festival.

Nathan Worrall

Highly recommend submitting to SFF. We felt looked after from the first point of selection – fantastic communication.

Sarah Leigh

It was really lovely to see the town get involved in such inclusive independent cinema culture, there's never been that much engagement before.

Audience Member

The team behind this festival are very welcoming and helpful.

Maisie

Excellent festival run by some passionate people. Exciting to have a festival like this in Suffolk & I'm excited to see it grow in the future!

Jack Heydon
